

Welcome to Gesu Catholic School!

It is with great enthusiasm that we welcome you to our school community. The selection of a school for your family is an important one. Within that choice, begins a partnership between you as parents, and a school which provides an environment that is safe, loving, and nurturing and contributes to the growth and success of each student. We are a school rich in tradition, providing a sound educational experience in an environment where students are encouraged to reach their full potential and develop into future leaders and contributing members of society.

Our school is strong in so many ways. However, our greatest strengths, at the core of our mission, are the faith and Catholic values that are present daily in our classrooms. We take great pride in not only the daily religious instruction but in how moral values are reinforced every day within the children we teach. In cooperation with our parish community, students are provided with the faith experiences, and service opportunities, students are enriched by the opportunity to grow in their faith and maintain a strong presence in their church and community. Within the Jesuit tradition, our students learn and live their faith daily.

Our students are motivated, challenged, engaged and encouraged in their learning. The curriculum offered here at Gesu Catholic School will provide students with a well-rounded educational experience. As a nationally recognized school of excellence, our school focuses on meeting the needs of all students in providing them the opportunity to grow to their full potential.

We thank you for your consideration of Gesu Catholic School for your educational needs and trust that your experience with us will give evidence of how we fulfill our mission and commitment to *personal growth, academic excellence, service to others and global citizenship*.

It is our hope that you choose to become part of the Gesu Catholic School family!

Sincerely,

Lucy lemmolo
Principal
Gesú Catholic School

Academic Excellence. Service. Personal Growth.
